

# Specialcare<sup>®</sup>

CalMag FORT

Liquid Nutrients for Plant Feeding Guarantee

## Benefits of Specialcare<sup>®</sup> FORT CalMag

- Specialcare<sup>®</sup> FORT CalMag is a high concentration source of Nitrogen, Calcium, Magnesium and boron, suitable for use as a fertilizer in foliar and fertigation applications.
- Specialcare<sup>®</sup> FORT CalMag is a pure liquid fertilizer, manufactured from pure raw material free of chlorine, sodium, and heavy metals.
- Specialcare<sup>®</sup> FORT CalMag is water soluble, readily available and rapidly absorbed by the plant.
- Specialcare<sup>®</sup> FORT CalMag is chloride & sulphur free, which provides a wide range of safe mixing with other fertilizers or agri-chemicals.

## Recommendation for uses

The spray tank should be filled with half of the required amount of water. After shaking the container, add the required amount of Specialcare<sup>®</sup> FORT CalMag to the tank and maintain constant agitation. Add remaining water to correct dilution then use.

### Application Rate

- For fertigation systems: 1-2 liters per 1000 liters of water.
- For foliar application: 2-3 liters per 1000 liters of water.
- Fruit trees : 1.5-3 liters / 1000 lit of water.

Specialcare<sup>®</sup> FORT CalMag is a special product; its application rate depends on the crop type, age, actual needs and deficiency symptoms .

## Properties of Specialcare<sup>®</sup> FORT CalMag

### Chemical Analysis (w/v)

Total Nitrogen N(NO3)	10%
Calcium Oxide (CaO)	10%
Magnesium Oxide (MgO)	5%
Boron (B)	1%
Molybdenum (Mo)	1000ppm

### Physical Properties

Appearance	Liquid
Color	Natural
pH	3-4
Density	1.4 Kg/ltr

## Precautions
